PROFESSIONAL SUMMARY

Finance and Data Analytics professional specializing in Finance Transformation, combining a strong corporate accounting background (CPA, Tanzania) with advanced technical proficiency in SQL, Python, and Power BI. Proven track record of bridging the gap between financial reporting and data architecture within enterprise ERP environments (SAP ECC & S/4HANA). Adept at automating complex ledger reconciliations, designing dynamic financial dashboards and models, and strengthening internal controls to drive operational efficiency, improve data integrity, and significantly reduce reporting times.

PROFESSIONAL EXPERIENCE

Graduate Research Assistant

Arkansas State University

Aug 2024 – May 2026

Jonesboro, Arkansas

- Used statistical tools to extract, compile, and validate research data for faculty members at the Griffin Graduate Program.
- Provide teaching support for Graduate Business Fundamentals and Corporate Finance courses, assisting with proctoring, grading and preparing academic performance reports.
- Enhance student engagement through in-class support and interactive learning activities.

Accounts Payable Analyst

TotalEnergies

Feb 2022 - April 2024

Dar-es-Salaam, Tanzania

- Performed internal accounting controls and invoice processing for supplier payments totaling \$1.6M+ per month, maintaining accuracy by identifying reporting errors, reconciling vendor accounts, and ensuring compliance with corporate audit standards.
- Designed automated financial dashboards using Power BI and VBA to consolidate data from multiple operational platforms, reducing monthly reporting time by 40%
- Designed data validation checks for the daily reconciliation of fuel cards and digital payments across 100+ locations, reducing quarter-end reporting lead time by 20% and improving control over financial risks.
- Analyzed KPIs for internal controls and compiled monthly and quarterly reports, providing management with clear visibility into budget forecasting and audit readiness.
- Worked within enterprise finance system environments supporting finance operations, reporting accuracy, and structured control processes.

Audit Assistant

Shrewd (T) Associates

Aug 2021 - Jan 2022

Dar-es-Salaam, Tanzania

- Set up cloud-based record management systems for clients in hospitality, mining, and construction to modernize legacy bookkeeping and improve audit efficiency.
- Conducted tax health checks and prepared final accounts, supporting regulatory compliance and accurate payroll maintenance across a diverse client portfolio.
- Helped improve documentation quality and financial record accessibility for audit and reporting purposes.

Business Development Officer
CRDB Bank PLC

June 2020 - July 2021
Dar-es-Salaam, Tanzania

- Partnered with retail banking operations to deliver targeted, data-informed marketing campaigns for underbanked rural communities.
- Contributed to a 70% expansion in the bank's agent network and increased digital product adoption through market development efforts.
- Supported business growth through field engagement, reporting, and customer-focused financial product outreach.
